

Senior Geotechnical Engineer Required – Northamptonshire

ListersGeo are a long established Geotechnical and Geoenvironmental Consultancy that operates throughout the UK. Our steadily expanding team of engineers provide a high quality of service in all aspects of ground investigation. We currently have 28 staff, including those in our own dedicated geotechnical soil testing laboratory.

Key Attributes:

- Minimum of 5 years proven experience in a ground investigation consultancy within the UK
- A BSc in Geology or related subject and an MSc in Geotechnical Engineering
- Chartered status or working towards it
- Self starter, team player with good inter-personal skills and proactive character

Role Outline:

- Manage a variety of projects from inception to completion
- Manage financial budgets for projects
- Undertake fieldwork and supervision of site contractors
- Preparation of desk study reports, interpretative geotechnical and geoenvironmental reports and waste classification assessments to current UK standards
- A good understanding of characterising ground conditions and providing recommendations covering foundation design, ground improvements, earthworks, basements, retaining wall, mining and slope stability assessments.
- A full UK driver's licence is required for travelling to sites within the UK
- A valid CSCS card would be advantageous

We can offer:

- Competitive salary
- Car allowance
- Private health care
- Non contributory pension
- Share option scheme
- Continuous Training under the BGS Accreditation Scheme and CPD Support
